

TO-DO LIST

BY:V.MAHARANI
I BCA-A

INTRODUCTION

A To-Do List helps manage daily tasks

Simple web-based application

Allows users to add and remove tasks

Built using basic web technologies

TECHNOLOGIES USED

HTML – Structure of the webpage

CSS – Styling and layout design

JavaScript – Functionality and interactivity

FEATURES OF THE APPLICATION

Add new tasks

Display tasks in a list

Delete tasks easily

User-friendly interface

WORKING OF THE CODE

User enters a task in input box

Clicks “Add” button

JavaScript creates a new list item

Delete button removes the task

Tasks are updated dynamically

CONCLUSION

Simple and useful productivity tool

Demonstrates DOM manipulation

Easy to enhance with more features

(like edit, save, or mark complete)

The background features two large, light pink geometric shapes. One is a triangle on the left side, and the other is a larger, more complex shape on the right side, both pointing towards the center.

THANK YOU
